ROTOR BLADE CAPABILITIES

- Rotor blade MRO is done in a specialized workshop in Norway
- This workshop is climate controlled and equipped with unique work stations set up for blade repair. The workspace is set up with safety and efficiency best practices in mind when transporting blades.

COMPONENT CAPABILITIES

Description	Part Number	Scope
Epicyclic Reduction Module	350A32-0100-xx 350A32-0110-xx 350A32-0120-xx	Overhaul, Repair, Inspect, Test
Bevel Reduction Module	350A32-0300-xx 350A32-0310-xx 350A32-0350-xx	
Oil Pump	350A32-0400-xx	
Rotor Brake Assy	350A32-0500-xx	
Tail Gearbox	350A33-0200-xx 350A33-0210-xx	
H130 Tail Gearbox	350A33-0502-xx	Overhaul, Repair, Inspect
Rotor Blades	350A11-0020-xx	Overhaul, Repair
