RESCUE EQUIPMENT

Heli-One's Rescue Equipment Shop, located at the Stavanger facility, performs repair and overhaul services on a wide range of rescue equipment. Turnaround times vary from 7-30 days on items such as life rafts, floats, life vests, inflation systems, and engine fire extinguishers. The shop's experienced technicians also work with other shops such as Avionics and Design for component level repair and custom solutions.

SCOPE OF WORK:

- Inspection
- Testing
- Repair
- Overhaul

Procedure is per OEM manual. Proprietary repairs may be available. Custom design solutions upon request. Condition reports are provided if required by the customer. Repairs and overhaul are done only after customer approval.

ADDITIONAL RESCUE EQUIPMENT SHOP CAPABILITIES

- Beyond the listed equipment, the shop also works with the Avionics department upstairs to support electrical components such as personal location transmitters.

- The shop also manufactures equipment and provides repair services for rescue equipment components such as straps, coverings, kits, and bags. In addition, staff work with Design Engineers to develop custom products such as seat coverings, storage systems, and nets.

OEMS SERVICED:

Heli-One works with a wide variety of rescue equipment manufacturers to provide maintenance, repair, and overhaul services. These include AeroSekur, GKN, Lite Flite, Survitec, Switlik, Zodiac.
