A new approach to helicopter
support

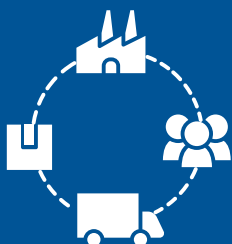

Beyond MRO: Our Expanded Services

CAMO SERVICES

TECHNICAL SERVICES

SUPPLY CHAIN SUPPORT

About Sky Support

A tailored menu of offerings that go beyond traditional MRO support to meet the modern fleet owner and operator's needs in a dynamic aviation environment.

BENEFITS

Heli-One is more than maintenance - we offer a diverse range of helicopter support solutions that are usually out of reach for most operators and owners.

Some of these include: Continuing Airworthiness Management (CAMO), 24/7 maintenance support center, supply chain integration, records digitization, technical consulting, and aircraft storage.

High Performance

Reliability monitoring to identify recurring issues and implement preventative actions.

Cost Reduction

Smart maintenance scheduling to maximize fleet performance.

Reduced Ground Time

Maintenance program tailored to aircraft utilization.

Improved Safety

Integrated safety management system to manage and mitigate risk.

SUPPLY CHAIN SUPPORT

Connect into Heli-One's extensive Supply Chain network to find solutions such as:

- Serviceable Used Material
- Exchange/Loaner Services
- Order Book Management
- One Supply Chain Interface
- Transportation Management
- Import/Export Optimization
-and more

CAMO

Continuing Airworthiness Management Organisation (CAMO) supports operators, lessors, and government fleets to increase performance, optimize operational costs and comply with all applicable airworthiness requirements.

- Maintenance Program Management
- Repetitive Airworthiness Functions
- ARC Certifications
- Technical Records Digitization
- Aircraft Storage
- Return-to-Service Capability
-and more

TECHNICAL SERVICES

Utilize Heli-One's best in sector support for virtually any technical customer need from flight standards to digital archiving. Other solutions could include:

- Flight Data Monitoring
- Electronic Flight Bag
- Training Support
- Records Auditing
- Technical Records Support
- ...and more

SKY SUPPORT

Sky Support is for:

OEMs

A credible partner with extensive services to expand OEM network, support offload of work, to facilitate aircraft sales and to enable growth in other areas.

Lessors

Access to aircraft maintenance and operator services to maintain asset value, reduce cost of transition to new leases and facilitate new operators.

Large Operators

Flexibility to outsource overhead costs and the ability to flex capacity to demand.

Small Operators

Access to world-class services with economies of scale to enable growth or reduce cost.
